EDUCATION

- **IOE Purwanchal Campus** Dharan, Nepal
Bachelor of Computer Engineering 2023 - 2027 (Expected)
- **Galaxy Secondary School** Dhangadhi, Nepal
High School (+2) - Science Stream 2021 - 2023

EXPERIENCE

- **FinFox App, Inc.** Remote
Frontend Developer & UI/UX Designer May 2025 - Present
 - **Frontend Development:** Developing responsive web applications using React.js and Next.js, implementing modern UI components and ensuring optimal performance across different devices and browsers.
 - **UI/UX Design:** Creating user-centered design solutions, wireframes, and prototypes using Figma. Implementing design systems and maintaining consistent visual identity across web and mobile platforms.
 - **Component Development:** Building reusable React components with TypeScript, integrating APIs, and collaborating with backend teams to deliver seamless user experiences.
- **Freelance MERN & Next.js Developer** Remote
Frontend & Backend Developer 2022 - May 2025
 - **Web Application Development:** Developed multiple full-stack applications using React.js, Next.js, Node.js, Express.js, and MongoDB with deployment on AWS, Vercel, and Cloudflare platforms.
 - **Client Projects:** Successfully delivered projects including Express News platform, UncleSams Tech website, Receipt Vault application, and various other client solutions with modern UI/UX design.
 - **Cloud Services & DevOps:** Implemented CI/CD pipelines, managed AWS services (EC2, S3, CloudFront), and configured Cloudflare Workers, Pages, and KV Storage for scalable application deployment.
 - **UI/UX Design:** Created responsive designs using Figma and Adobe XD, implemented design systems with Tailwind CSS, and ensured optimal user experience across desktop and mobile platforms.

PROJECTS

- **AlgoDocs:** Complete end-to-end application development including backend architecture, frontend implementation, and full-stack solution. Comprehensive project ownership from conception to deployment.
- **V Themes:** Theme development project focusing on modern design aesthetics and user interface components. Created customizable and responsive theme solutions.
- **ProMCP:** Complete application development with full ownership of frontend, backend, and entire system architecture. End-to-end project management and technical implementation.
- **JuJu:** Full-stack mobile application with complete backend architecture, modern frontend interface, and comprehensive UI/UX design. Built using MERN stack with responsive design and user-centric experience.
- **Receipt Vault:** Receipt management application focusing on UI/UX design and frontend development. Created intuitive user interface with modern design principles and seamless user experience.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Framer Motion, Vite
- **Backend:** Node.js, Express.js, MongoDB, RESTful APIs
- **Programming Languages:** JavaScript, TypeScript, C, C++
- **Cloud & DevOps:** AWS (EC2, S3, CloudFront), Cloudflare (Workers, Pages, KV Storage), Vercel
- **Design Tools:** Figma, Adobe XD, Responsive Design
- **Development Tools:** Git, GitHub, VS Code, CI/CD Pipelines
